

Creative Challenge: Your AI Alter-Ego

Step 1: Open up our template

If you have generative AI features **ENABLED**:

Click the image on the right (or [here](#)) to open the AI text-to-image template.

If you have generative AI features **DISABLED**:

Click the image on the right (or [here](#)) to open the creative collage template.

Step 2: Create your alter-ego

If you have generative AI features **ENABLED**:

Use and adapt the prompt written below the main image to create your own parameters for a unique AI alter-ego, then enter your prompt into the AI text-to-image tool and hit 'Generate'.

If you have generative AI features **DISABLED**:

Use and adapt the prompt written below the main image to gether inspiration for a creative collage featuring your alter-ego, then search for its components using the 'Media' menu to find images that you love.

Step 3: Refine your creation

If you have generative AI features **ENABLED**:

Experiment with different styles and different options in the 'Content type' menu to create a different look and feel for your alter-ego.

Also make sure to scroll down and click 'Load more' to see more AI image options.

If you have generative AI features **DISABLED**:

Select the different images in your collage and use options like crops and remove background to remove parts you don't need. Then you can adjust the color, lighting and level of detail of each part of the collage using the 'Effects' and 'Adjustments' menus.
