Let's get started!

1. Scan the QR code or click on the image of the quote poster template to open it in Adobe Express.
2. Remix the template to create your own quote poster based on a quote from a historical or modern icon:
 1. Change the text to outline your person's life and achievements
 2. Change the colors and the design. Make it your own!
4. When you're done, download your poster as a .jpeg or click "Share" to create a link, then share it with your class.
